

PUBLISHED BY AUTHORITY

SIMLA, SATURDAY, OCTOBER 3, 1953.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

## PART III—SECTION 2

### Notifications and Notices issued by the Patent Office relating to Patents and Designs.

#### THE PATENT OFFICE Patents and Designs

Calcutta, the 3rd October 1953

#### Special Notice

The Patent Office Journal, 1952, containing particulars of applications for patents made during the year 1948 and designs registered during the year 1950 and of certain other proceedings under the Indian Patents and Designs Act, 1911, upto 30th June 1951 has been published and is now available for sale with the Manager of Publications, Civil Lines, Delhi (and for local sale only at the counter of the Government of India Book Depot, 8, Hastings Street, Calcutta) at Rs. 43 or 65sh. 6d. per copy.

#### CORRIGENDUM

In the Gazette of India, Part III, Section 2, dated the 19th September 1953, under the heading "Registration of Designs"—

In Page 172, Column 2, insert a fresh paragraph after Line 2—

"The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act".

and

In Page 172, Column 2, insert "(7th February 1953)" after "July 3, 1953" at the end of the entry relating to "Class 1 No. 76312".

#### Applications for Patents

The dates shown in crescent brackets are the dates claimed under Section 78-A of the Act.

17th September, 1953

- 50274. Z. Sebasteen. An improved treddle loom for cloth weaving.
  - 50275. P. N. Contractor. Improvements in or relating to flushing cisterns for water closets or the like.
  - 50276. Societe des Etablissements BARBET. Improvements in and relating to the purification of alcohol.
  - 50277. Dunlop Rubber Company Limited. Improvements in pneumatic tyres. (14th October 1952).
  - 50278. Armstrong Patents Co., Limited, formerly Armstrong's Patents Company Limited. Improvements in valves for telescopic hydraulic shock absorbers. (22nd September 1952).
  - 50279. Armstrong Patents Co., Limited. Improvements in or relating to hydraulic shock absorbers. (1st August 1953).
  - 50280. Stebler-Saner. Method for the manufacture of lamp shades, luminous and advertising signs, embossed articles for script and plastics and the like from synthetic materials.
  - 50281. E. Gretener. Television projection apparatus.
  - 50282. L. S. Perez. An automatic take up attachment for any fly shuttle hand loom. [Addition to No. 41844].
- 18th September, 1953
- 50283. The Florida Industrial Laboratory, Inc. Improvements in or relating to process for, and a decorticator adapted for, the recovery of textile fibres from cane plants.

- 50284. W. A. Bechtler. Roller-blind having pivoted slats.
- 50285. Standard Telephones and Cables Limited. Improvements in or relating to timing equipment. (19th September 1952).
- 50286. Pilkington Brothers Limited. Improvements in or relating to methods of and apparatus for manufacturing toughened bent glass. (20th September 1952).
- 50287. Ciba Limited. Process for the manufacture of dehydrogenation compounds of the pregnane series.

19th September, 1953

- 50288. D. J. Wadia. Improvements in and relating to "Flower vases".
- 50289. H. Neidhart. Improvements in or relating to resilient suspension systems for vehicles.
- 50290. J. Jozif and K. Venygr. Engine block with swinging drive mechanism, more particularly for single-track motor vehicles.

21st September, 1953

- 50291. The English Electric Company Limited. Improvements relating to electric motor control systems. (30th September 1952).
- 50292. M. N. Mashruwala. Jacketed jute picker.
- 50293. K. S. Bhagwat. Improvement in the design of kerosene burning appliance.
- 50294. Pearl Varnish Company Limited. Improvements in or relating to coating compositions. (30th September 1952).
- 50295. Ciba Limited. Process for the manufacture of oxydation products of the steroid series.
- 50296. Manmohan Singh. Improved manner of cooling buildings.
- 50297. M. Floro. Process of obtaining water white oil from fresh coconut meat.

22nd September, 1953

- 50298. C A L O R E M A G Elektrizitäts-Aktiengesellschaft. Space saving switchboard structure of the cubicle type with double busbar system.
- 50299. N. V. De Bataafsche Petroleum Maatschappij. Process for carrying out reactions between hydrocarbons, which reactions are accelerated by catalysts of an acid nature.
- 50300. The Chloride Electrical Storage Company Limited. Improvements relating to lead acid accumulators.
- 50301. The Chloride Electrical Storage Company Limited. Improvements relating to the grids of lead acid electric accumulators.
- 50302. J. E. Wheeler, F. G. R. Vowles and G. Greenstone. Improvements in or relating to shaving brushes.
- 50303. F. Ljungstrom. A method for supplying heat in processes demanding heat and an apparatus for the application of the method.
- 50304. Societe D'Electro-Chimie D'Electro-Metallurgie Et Des Acieries Electriques D'Ugine. Improvements in or relating to the desulphurisation and desiliconising of cast iron. (27th July 1953).

50305. Acrow (Engineers) Limited. Improvements relating to shuttering systems.
50306. "METAPIC" S. A. Unwinding and releasing means for the warp beam of weaving looms.
50307. "METAPIC" S. A. Driving means for heddle frames in weaving looms.
50308. "METAPIC" S. A. Weaving loom frames and reinforcing cross-members therefor.
50309. "METAPIC" S. A. Weaving loom cloth beam supports.
50310. "METAPIC" S. A. Return movement device for weaving loom heddle-frames.
50311. "METAPIC" S. A. Frame construction for weaving looms.
50312. "METAPIC" S. A. Damping device for the picker-stick of weaving looms.
50313. "METAPIC" S. A. Improvements to the supporting mechanisms of the picker in modern looms.
50314. "METAPIC" S. A. Device for the quick and temporary release of the shuttle in the shuttle-box of looms.
- 23rd September, 1953
30315. H. C. Giara. Improved folders for suspension filing system.
50316. British Insulated Callender's Construction Company Limited. Improvements in the making of concrete foundations. (15th October 1952).
50317. Bechtler & Co. Actuating device for jalousies.
50318. Graetz Kommandit-Gesellschaft. Improvements in and relating to hurricane lamps. (20th August 1953).
50319. Graetz Kommandit-Gesellschaft. Improved internal chimney for fuel lamps. [Addition to No. 47489].
50320. W. J. Nickerson. Culture medium.
50321. Imperial Chemical Industries Limited. New chemical compounds and their manufacture and application. (16th October 1952).
50322. Rodi & Wienenberger Aktiengesellschaft. An elastic one-legged link-band of the scissor-like opening and stretching type.
50323. I. Nordviste. Arrangement in structural elements.
50324. F. J. Collin A. G. Process for utilisation of solutions of ferrous salts with sulphuric acid, especially of waste pickle liquor.
50325. Harry Ferguson of India Limited. Improvements in or relating to tractor wheels. (25th September 1952).
50326. Rodi & Wienenberger Aktiengesellschaft. A stretchable link-band.

#### Alteration of dates

47301. The claim to priority date 17th May 1951 has been disallowed and the application dated as of 16th May 1952, the date of filing in India.
47660. The claim to priority date 19th March 1952 has been abandoned and the application dated as of 14th July 1952, the date of filing in India.
50017. Ante-dated. 17th June 1952, under Section 5 of the Act.

#### Applications accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patents Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933 of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Manager of Publications, Civil Lines, Delhi and also on cash payment at the counter of the Government of India, Central Book Depot, 8, Hastings Street, Calcutta, in the course. The price of each specification is Rs. 2 (Postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of the specifications as shown in the following list.

If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office, on payment of the necessary charge which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

46420. Pacific Mills. Apparatus and method for indicating and recording variations of silver or yarn thickness. Accepted on 22nd September 1953.
- Fluctuations in the silver or yarn thickness being recorded by a pen on a chart sheet of paper fed under the pen at a predetermined speed.*
46553. Metallgesellschaft Aktiengesellschaft. Improvements in or relating to a method of producing materials with surface-active properties. (13th November 1951). Accepted on 22nd September 1953.
- Mixing carbonaceous substance with an activating substance, conducting the mixture in the form of suspension in a gas through treatment zone and transmitting heat by means of moving heat transferring solids.*
46735. Alucrete Constructions Limited. Improvements in or relating to set expanded constructional cements and plasters. (16th February 1951). Accepted on 21st September 1953.
- In which the expansion is effected in the presence of a small amount of a water soluble alcohol preferably methanol and ethanol.*
46916. Societe De La Pile Leclanche. Improvements in or relating to batteries. Accepted on 18th September 1953.
- Dry cells depolarised by the oxygen of the air consisting of a pile of flat elements whose faces closed by waterproof insulating material.*
46928. A. J. A. Asplund. Method and apparatus in the manufacture of pulp from fibrous ligno-cellulose containing materials. Accepted on 18th September 1953.
- Prior to long time treatment in the heat, the lingo-cellulose material is impregnated with chemicals having a neutralising effect on organic acids formed under the heating of the materials.*
47007. The Mond Nickel Company Limited. Improvements relating to the addition of magnesium to molten iron. (18th April 1951). Accepted on 19th September 1953.
- Adding all or greater part of magnesium in the form of nitrided magnesium or nitrided magnesium alloy.*
47024. Dunlop Rubber Company Limited. Improvements in or relating to the production of pile fabric. (11th April 1951). Accepted on 18th September 1953.
- A pair of vertically spaced electrodes, means for passing adhesively coated backing material in contact with the upper electrode and means for delivering pile fibers thereon.*
47033. The Mond Nickel Company Limited. Improvements relating to the addition of magnesium to molten iron. [Addition to No. 47007]. Accepted on 19th September 1953.
- Adding magnesium to molten iron in the form of nitrided magnesium or nitrided magnesium alloy in admixture with a promotor of the decomposition of magnesium nitride.*
47195. Ford Motor Company of Canada, Limited. Door lock. Accepted on 18th September 1953.
- In a latch employing a rotatable bolt and a ratchet, a manually operable control arm has an arm connected to a locking lever which extends through a slot in the flange of the lock plate, an arm of pawl also extending through the slot.*
47210. Firth-Brown Tools Limited. Improvements in or relating to multi-edge cutting tools. Accepted on 22nd September 1953.
- Having cutting edges with positive rake and clearance angles and having edges diving into parts and between the parts having non-cutting ramp like surfaces.*
47211. Firth-Brown Tools Limited. Improvements in or relating to cutting edges for cutting elements for cutting and abrading tools. (3rd May 1951). Accepted on 23rd September 1953.
- Step of upsetting from the surface of a sheet or blank parallel rows of spaced tongues with sharpened edges.*

47301. Harry Ferguson Inc. Drive mechanism for tractor-implement combination. Accepted on 18th September 1953.

*Stub shaft, for outboard wheel, attached to the tractor axle in lieu of tractor wheel, supports tractor wheel for free rotation.*

47475. Automatic Telephone & Electric Company Limited. Improvements in telephone systems employing voice frequency signals. (6th July 1951). Accepted on 18th September 1953.

*There is provided a link terminating set having an impulse responsive device responsive to a train of D. C. loop impulses to control the transmission of corresponding V. F. impulses.*

47660. American Cyanamid Company. Improvements relating to vinyl resin articles and treatment thereof. Accepted on 18th September 1953.

*To reduce tendency to accumulate static charges on vinyl resin articles, applying on the articles a volatile liquid containing a quaternary ammonium compound and drying.*

47715. Khushhal Chand Gulati and Basanta Gopal Chatterjee. Improvements in or relating to preparation of terpenyl esters. Accepted on 22nd September 1953.

*Terpenes obtained from turpentine oil are reacted with an organic acid with or without a condensation catalyst.*

47743. Metallgesellschaft Aktiengesellschaft. Method of and apparatus for the separation of mixtures of substances containing magnetic and electrically conducting constituents. Accepted on 21st September 1953.

*Wherein the discharge means of the magnetic separator for discharging the residues therefrom are rendered electrically conducting.*

47787. Ford Motor Company of Canada, Limited. Valve gear for internal combustion engines. Accepted on 22nd September 1953.

*A spring loaded valve is operated by an eccentric pivotally mounted in the rocker arm.*

47886. The Permutit Company Limited. Improvements relating to boiler feed water plants. (12th September 1951). Accepted on 19th September 1953.

*Comprising a tank containing anion exchange material capable of removing  $\text{CO}_2$  from the make-up water passing through the tank, and a surge tank connected to the pipe leading to the boiler from said tank.*

48214. J. Dionisotti. Improvements in steel cutting plane carbide tipped rockdrill. Accepted on 22nd September 1953.

*Comprising carbide tipped rockdrill having longitudinal surfaces thereof flaring both in the direction of longitudinal axes and in the direction leading from their inner to outer ends to provide a secure fixation.*

48248. The Distillers Company Limited. Manufacture of organic nitriles. (18th October 1951). Accepted on 21st September 1953.

*Catalytically oxidising olefines and converting the aldehydes formed to nitriles.*

48270. Imperial Chemical Industries Limited. Improvements in or relating to the recovery of glycerol. (3rd December 1951). Accepted on 22nd September 1953.

*Mixing powdery material with fermentation liquor and leaching the mixture with glycerol solvent of lower-boiling point and to separate glycerol therefrom by evaporation.*

48695. British Telecommunications Research Limited. Improvements in or relating to electrical devices for storage of information. (31st December 1951). Accepted on 21st September 1953.

*Comprises a plurality of sets of cold cathode gas discharge tubes, the first set being selectively operated while the tubes of subsequent sets are primed by tubes of preceding sets.*

48825. Ciba Limited. Manufacture of 1(3)-alkoxyphenyl-3(1)-alkylphenyl-2-thioureas. Accepted on 18th September 1953.

*Reacting compounds  $\text{R}_1\text{C}_6\text{H}_4\text{X}$  and  $\text{R}_2\text{C}_6\text{H}_4\text{Y}$  so that the thiourea grouping  $-\text{NH}-\text{C}(=\text{S})-\text{NH}-$*

linking the two phenyl residues is formed and if necessary converting  $\text{R}_1$  and  $\text{R}_2$  into the desired groups.

48826. A. Friedr. Flender & Co. Permanent-magnetic coupling. Accepted on 21st September 1953.

*Wherein coupling halves are provided with a wreath of permanent magnets, the wreaths being alternately provided with north and south poles having the same pole pitch.*

48902. (Miss) J. J. M. H. Kottcrink and (Miss) M. J. J. Kottcrink. Method of manufacturing building elements. Accepted on 22nd September 1953.

*Containing sand limestone and a substance having alkaline reaction.*

48978. Imperial Chemical Industries Limited. Improved initiating compositions for use in blasting and military detonators and their production. Accepted on 23rd September 1953.

*Composition comprising a major proportion of lead azide and a minor proportion of a normal lead salt of 2:4 dinitroresorcinol.*

49032. Standard Telephones and Cables Limited. Improvements in or relating to multichannel electric carrier current communication systems. (22nd February 1952). Accepted on 21st September 1953.

*Comprising circuits over each of which are conveyed same series of carrier waves of different frequencies with corresponding sidebands and means for adjusting the phases of the carrier waves such that at one at least of the transmitting and receiving sections, the phases of all the carrier waves of the same frequency are substantially the same.*

49116. Studi E. Brevetti Applicazioni Tessili S.r.l. Device for the continuous processing of yarns. Accepted on 23rd September 1953.

*Characterized in that adjacent wet processing zones are separated by rings of elastic material which at no point intersect the thread supporting surface.*

49142. Neyrpic Portuguesa, Lda. Automatic balance-beam hinge leaf gates subjected to the impulse of downstream waters. Accepted on 22nd September 1953.

*A float connected to the balance beam type of hinge leaf gate neutralises the effect of the pressure of the tail water on the leaf.*

49230. Huwood Mining Machinery Limited. Improvements in composite rollers, pulleys and the like. Accepted on 21st September 1953.

*Hollow interior contains a store of oil for lubricating the bearing is provided with cavity to hold lubricating grease and sealing means between the body and spindle.*

49262. Standard Telephones and Cables Limited. Improvements in or relating to the manufacture of electrical capacitors. (19th August 1952). Accepted on 21st September 1953.

*Manufactured by coating insulating material to conductor twice and cutting the double coated conductor.*

49326. F. L. Smidh & Co. A/S. A method of expelling sulphur from materials containing lime and sulphurous compounds. Accepted on 18th September 1953.

*In burning materials containing lime and sulphurous compounds for producing cement or lime, reducing agents for reducing sulphur compounds are added after the decomposition of the carbonates.*

49340. Wegmann & Co. 2-Axle bogies for rolling stock. Accepted on 18th September 1953.

*Axle guides transmit the vertical forces of the four axle bearings to three springs or sets of springs.*

49365. N. V. De Bataafsche Petroleum Maatschappij. Composition of matter capable of being cured to a resinous product. Accepted on 23rd September 1953.

*The process is characterised in that a glycidyl polyether of a polyhydric phenol is mixed with a 2-alkenyloxy benzene.*

49409. Cable Belt Limited. Improvements in or relating to conveyor belts. (22nd April 1952). Accepted on 21st September 1953.

*Rubber belt embedded with textile reinforcing material having also embedded therein a series of transversely extending resilient metal rods.*

49552. The Indian Oxygen & Acetylene Company Limited. Improvements in or relating to the preparation of an oxygen free fraction from a crude gaseous mixture containing oxygen. (24th July 1952). Accepted on 22nd September 1953.

*The gas mixture is mixed with hydrogen in excess of that is stoichiometrically required.*

49664. Jnan Saran Chatterjee. Wide band oscillator in the H.F. and U.H.F. ranges. Accepted on 17th September 1953.

*Plate and grid of oscillator valve connected respectively to a variable inductance and a plate of a condenser or respectively to two variable inductances with a condenser between them, and a single control means to vary the inductance or inductances and after decreasing to the minimum to vary the length of the R.F. Short-circuited transmission line in one continuous operation.*

49669. C. A. Parsons & Company Limited. Improvements in regenerative heat exchanger. (12th June 1952). Accepted on 22nd September 1953.

*A sleeve valve arrangement is provided on either side of the matrix for controlling the flow.*

49677. British Federal Welder and Machine Company Limited. Improvements in or relating to metal stripping machines. (14th November 1952). Accepted on 22nd September 1953.

*Comprising a base supporting clamping members, a tool holder on which are mounted planing tools, a vertically movable structure supporting clamping members, guides for a traversing tool carriage or holder carrying a member of planing tools.*

49680. H. Parbhodas & Co. Improvements in or relating to duplicating machines. Accepted on 18th September 1953.

*Movement from 'on' to 'off' position is effected by indirect means in conjunction with rotating drum.*

49827. Combustion Engineering, Inc. Improvements in or relating to a steam purifying apparatus and method of obtaining purified steam. Accepted on 18th September 1953.

*By whirling the mixture of steam, water and foam through a spiral flow within a drum, and then passing through clean washing water.*

49865. The Plastic and Industrial Corporation Limited. Improvements in or relating to containers and lids therefor. Accepted on 19th September 1953.

*Wherein lid has inside thereof one or more ledges or ribs like protuberance separated by one third the distance of circumference of the lid.*

49939. Powers-Samas Accounting Machines Limited. Improvements in or relating to statistical machines. (29th September 1952). Accepted on 21st September 1953.

*Comprises a pair of rotatable feed rollers co-operating to move a card into engagement with a deflector directing the leading end of card.*

49914. Monsento Chemicals Limited. Improvements relating to the pelleting of substances in finely divided form. (17th July 1952). Accepted on 23rd September 1953.

*Mixing with aqueous dispersion of aliphatic hydrocarbon of high viscosity.*

50017. Automatic Telephone & Electric Company Limited. Improvements in telephone system. (6th July 1951). [Divisional date, 17th June 1952]. Accepted on 18th September 1953.

*Terminating exchange is provided at the incoming end with equipment to respond to voice frequency signals.*

50105. Standard Telephones and Cables Limited. Improvements in or relating to electric trigger circuits. (23rd December 1952). Accepted on 21st September 1953.

*Including an amplifier arranged to be capable of assuming two different current conditions, means for generating an alternating current, triggering means and means for utilising the alternating current for holding the amplifier in one condition.*

#### Printed Specifications Published

A limited number of printed copies of the undernoted specifications are available for sale from the Manager of Publications, Civil Lines, Delhi, or on cash payment at the counter of the Government of India, Central Book Depot, 8, Hastings Street, Calcutta, at two rupees per copy :—

33563. 43380. 43542. 43788. 43842. 44162. 44726. 44871. 44899. 44907. 45275. 45288. 45421. 45455. 45487. 45708. 45801. 45834. 45887. 45898. 46055. 46095. 46169. 46327. 46328. 46416. 46512. 43801. 43854. 44207. 44296. 44460. 44485. 45100. 45202. 45348. 45401. 45438. 45838. 46111. 46334. 46366. 46837. 47143.

#### Patents Sealed

45626. 45965. 46027. 46046. 46062. 46155. 46241. 46243. 46316. 46323. 46440. 46531. 46602. 46618. 46619. 46698. 46746. 46816. 46832. 47152. 47245. 47321. 47361. 47427. 47431. 47498. 47650. 47726. 47727. 47732. 47833. 47856. 47934. 48042. 48074. 48123. 48129. 48160. 48199. 48289. 48309. 48327. 48337. 48364. 48450. 48455. 48458. 48470. 48471. 48473. 48474. 48699. 48725. 48755. 48794. 48866. 48991.

#### Amendment Proceedings

(1)

The amendment proposed by Aladdin Industries Limited in respect of Patent No. 47022 as advertised in the Gazette of India, Part III, Section 2, dated the 13th June, 1953, has been allowed.

(2)

The amendment proposed by Ciba Limited in respect of Patent No. 43249 as advertised in the Gazette of India, Part III, Section 2, dated the 6th June, 1953, has been allowed.

#### Registration of Assignments, Licences, Etc.

Assignments, Licences or other transactions affecting the interests of the original patentees have been registered in the following cases. The number of each case is followed by the names of the parties claiming interest :—

39650. Investigacao E Exploracao Industrial (S.A.R.L.).

#### Renewal fees paid

22143. 22383. 22783. 25052. 26129. 26960. 27724. 27806. 27807. 28704. 29056. 29057. 29134. 31491. 31494. 31626. 31866. 31890. 32395. 33405. 33406. 33443. 33519. 33529. 33573. 33670. 33986. 35692. 35810. 35842. 35937. 35956. 35957. 36028. 36039. 36130. 36211. 36213. 36227. 36440. 36856. 37166. 37367. 37780. 38319. 38425. 38468. 38513. 38569. 38619. 38647. 38661. 38678. 38814. 38821. 38890. 39107. 39854. 40107. 40108. 40142. 40288. 40297. 40316. 40349. 40353. 40381. 40520. 40544. 40721. 40722. 40775. 41160. 42049. 42173. 42329. 42330. 42361. 42387. 42513. 43411. 43840. 43895. 43994. 43995. 43996. 43997. 44173.

RENEWAL FEES PAID in respect of State Patents under provision of Section 80 of the Indian Patents and Designs Act.

#### Hyderabad Patents

4/1357F. 25/1358F. 30/1358F.

#### Cessation of Patents

24112. 28897. 31078. 33693. 35102. 37226. 37573. 37591. 37605. 39512. 39831. 41533. 41541. 41542. 41543. 41544. 42040. 42041. 43302. 43316.

#### Registration of Designs

The following designs have been registered. They are not open to inspection for a period of two years from the date of registration except as provided for in Section 50 of the Indian Patents and Designs Act.

The date shown in each entry is the date of registration of the design included in the entry.

Class 1 No. 76164. KAPILA CHARAN DAS, Maheswari Type Foundry, Bakhraabad, Cuttack, 2. (Oriya) Indian subject, "Oriya type founts", June 4, 1953.
